ADOT-Related Vetoed Legislation

HB 2262: Transportation Network Services

Would have established regulations for "transportation networks" (defined). Transportation networks would have been authorized to offer transportation network trips at no charge, suggest a donation, or charge a fare. Transportation network operators would have been prohibited from soliciting or accepting street hails. Requirements for transportation network operators would have been established. Violations of these requirements would have been subject to a civil penalty of up to \$1,000 for each violation, not to exceed \$10,000 for any 30-day period. Transportation network vehicles and transportation networks would not have been subject to further regulation by counties and municipalities. AS VETOED BY GOVERNOR. Her veto message stated that consumer safety must not be sacrificed for the sake of innovation, and that the bill created gaps in insurance coverage that resulted in financial risks for transportation network drivers, passengers, and other motorists.

http://www.azleg.gov//FormatDocument.asp?inDoc=/legtext/51leg/2r/bills/hb2262s.htm&Session_ID=112

HB 2327: Motor Vehicle Insurance; Exclusion

For the purpose of cancellation or nonrenewal of motor vehicle insurance, any motor vehicle principally garaged outside this state would have been excluded from the definition of "motor vehicle." AS VETOED BY GOVERNOR. Her veto message stated that since the legislation does not define "principally garaged outside Arizona" it leaves the determination to insurance companies, and that the legislation may have the unintended consequences of removing important consumer protections.

http://www.azleg.gov//FormatDocument.asp?inDoc=/legtext/51leg/2r/bills/hb2327s.htm&Session_ID=112

HB 2459: Rulemaking; Restrictions

State agencies would have been prohibited from adopting any new rule that would increase existing regulatory restraints or burdens on the free exercise of property rights or the freedom to engage in an otherwise lawful business or occupation, unless the rule was a component of a comprehensive effort to reduce regulatory restraints or burdens or was strictly ministerial in implementing legislative standards. Any person subject to a civil or criminal proceeding arising from the enforcement of a rule in violation would have had a defense to the enforcement action. Would not have applied to rules governing public employees or rules necessary for health regulatory boards to provide for public safety and enforce the standard of care. AS VETOED BY GOVERNOR. Her veto message stated that while she commends the sponsor for the effort to reduce regulations, she believes this legislation would have unintended consequences negatively impacting state agencies' ability to implement state law.

SB 1201: Autocycle; Class M License; Exemption

A class M driver license would not have been necessary for operating an “autocycle” (defined as a three-wheeled motorcycle with a completely enclosed seating area equipped with a roll cage, safety belts and antilock brakes and designed to be controlled with a steering wheel and pedals). A “motorized quadricycle” (defined as a commercial motor vehicle that is self-propelled by an emission-free electric motor, that seats at least eight passengers and that is licensed by the Department of Weights and Measures to operate as a limousine) would have been prohibited from being operated at a speed of more than 15 miles per hour and from being driven on a highway with a posted speed limit of more than 35 miles per hour. Motorized quadricycles would have been allowed to be licensed as limousines. AS VETOED BY GOVERNOR. Her veto message stated that the visible consumption of alcohol on public streets in these “motorized quadricycles” is inconsistent with other laws and could present a public safety risk.
